LucaNet delivers all the core functions of Financial Performance Management in one single software platform. Since our very first software release in 1999, our aim has been to simplify your day-to-day financial department processes with the help of our intelligent and simply intuitive solution.

No matter what the size of your company or what industry you operate in, we can provide you with a tailored solution and a fast implementation process. Over 2,000 customers in more than 50 countries are already profiting from the LucaNet difference.

### Find out how simple consolidation, planning, and analysis can be.

#### LucaNet is the ideal solution for:

- Compiling consolidated financial statements in line with HGB, IFRS, and more
- Planning success, financials, and balance sheets – all fully integrated
- Digital financial statements, data and risk analysis
- Analysis and financial reporting
- Creating and submitting tax balance sheets

#### How LucaNet software stands out

- A complete data model that includes computational business logic
- Combines consolidation, planning, and controlling in a single tool
- Predefined parallel structures (that can also be customised) for P&L, balance sheets and cash flow statements
- Automatically imports data from all common source systems (via 200 interfaces)
- Certified according to the IDW PS 880 standard

#### Software for your financial department

Our Financial Performance Management platform is ready to connect to multiple data sources straight away and requires no special IT expertise. It is a multilingual platform straight out-of-the-box, so international collaboration and consolidation processes are no longer a chore!

#### Schedule your own presentation

Get in touch and we'll be happy to set up an appointment to give you a personalised presentation online or at your offices.
