

MAKE THE COMPLEX SIMPLE

With LucaNet, you're on your way to ...

- ✓ ... a unified database
- ✓ ... error-free consolidated financial statements
- ✓ ... real-time financial planning
- ✓ ... valid reports and KPIs

ONE APPLICATION FOR MANY FIELDS OF APPLICATION

LucaNet is a global software provider for financial consolidation, planning, and reporting. We are dedicated to offering a reliable product, driven by a unique team of individuals with a deep understanding of the needs of finance professionals worldwide. Their expertise and talent contribute to the success of our product.

Our mission is to provide CFOs, controllers, and group accountants with ease of mind by making their everyday lives easier. This enables them to fully focus on what matters most: minimizing risks, driving sustainable growth, and making effective business decisions with confidence.

Our user-friendly Corporate Performance Management platform for Finance is designed to match the exact requirements of finance teams by providing accurate and consistent information effectively. And all this within a short timeframe.

Our approach to rethinking finance has taken us a long way. For more than 20 years, 5,000 customers in 50 countries have already trusted LucaNet. Wherever reliable financial data is needed, we are there. In collaboration with a worldwide partner network, we provide state-of-the-art technologies and one-of-a-kind support. At the top of our agenda is a product that makes a real impact every day.
